

## **Datacomms Designer – Certified Network Infrastructure Design Professional (CNIDP)**

Datacomms Designers (CNIDP) are responsible for the design of networking solutions in all types of structured cabling solutions, including complex network infrastructure projects. They must be able to interpret customer requirements using the appropriate tools to produce compliant design solutions in accordance with national and international standards.

Datacomms Designers (CNIDP) must have completed:

- (a) A BTEC Level 5 Professional Award - Certified Network Infrastructure Design Professional (CNIDP); and have
- (b) Completed the ECS Health and Safety Assessment (within the last 30 months) or hold a valid approved equivalent.
