Datacomms Manager - Certified Telecommunications Project Manager (CTPM)

Datacomms Managers (CTPM) are responsible for complex infrastructure projects, particularly in the database environment, with a focus on pure project management activities. They must be able to monitor and maintain the progress of all projects with effective risk management and issue resolution.

Datacomms Managers must have:

(a) Been graded as a Datacomms Technician (CNIT); and have at least three years' experience; or have
(b) A BTEC Level 4 Professional Award – Certified Telecommunications Project Management (CTPM); and have
(c) Completed the ECS Health and Safety Assessment (within the last 30 months) or hold a valid approved equivalent.

If the formal Datacomms qualifications listed above are not held then ECS Related Discipline cards for Datacomms Installer, Field Services Engineer or Telecoms Installer can be issued to individuals if they have the following:

(a) The employers endorsement and recommendation; and have
(b) Completed the ECS Health and Safety Assessment (within the last 30 months) or hold a valid approved equivalent.
